Packaging & Shipping

Packaging	Mixed packaging: roof frame and bottom frame will be packed together with bolts; all the wall panels packed together with wooden pallet in the bottom, corrugated board on the surface, and XPS board in the inter-space. And it will be shipped in 40' container.
Unloading	40 feet ocean freight container: A: Take out the small packages. B: Use folk lift to take out the wall panel packages. C: Grapple the corner on bottom side of the container house and drag the package out, remain about 50cm in the shipping container. D: Use folk lift to lift the container package in the middle and move it out of the shipping container. E: Put the package on ground side-wise, use wooden pad if it's flat-wise.
Delivery by 40'HQ shipping container by bulk packing in general .
