Packaging & Shipping

Packaging	Mixed packaging: roof frame and bottom frame will be packed together with bolts; all the wall panels packed together with wooden pallet in the bottom, corrugated board on the surface, and XPS board in the inter-space. And it will be shipped in 40' container.
Unloading	40 feet ocean freight container:
	A: Take out the small packages.
	B: Use folk lift to take out the wall panel packages.
	C: Grapple the corner on bottom side of the container house and drag the package out, remain about 50cm in the shipping container.
	D: Use folk lift to lift the container package in the middle and move it out of the shipping container.
E: Put the package on ground side-wise, use wooden pad if it's flat-wise.	

Delivery by 40'HQ shipping container by bulk packing in general .

PREGUNTAS MÁS FRECUENTES:

1, ¿Cuál es su plazo de pago?

Depósito del 50% por TT, balance del 50% antes de cargar el envase por TT; 100% LC a la vista pago total de más de 100.000 USD);

2, ¿Qué hay de envío?

Utilizamos el envase 40HQ para enviar las mercancías; El envase 40HQ generalmente puede cargar sobre 160-180 Casa de metros cuadrados.

3, plazo de expedición?

Depende de MOQ, por lo general podemos organizar el envío alrededor de 10 días después del depósito recibido

4, ¿Cómo instalar?

Por lo general, vamos a proporcionar el dibujo de la instalación, y si es necesario, también ofrecemos video de instalación.

5, ¿Puede usted enviar a trabajadores para ayudarme a construir la casa?

Teniendo en cuenta los costos de mano de obra, la seguridad y las cuestiones de visado, sugerimos enviar uno o dos ingenieros para guiar y capacitar a su personal. Usted debe proporcionar billetes de avión, hotel y comida, y 100USD por día para el sueldo de ingeniero.
