Packaging & Pagpapadala

Packing & Shipping

Packaging & Shipping

Packaging	Mixed packaging: roof frame and bottom frame will be packed together with bolts; all the wall panels packed together with wooden pallet in the bottom, corrugated board on the surface, and XPS board in the inter-space. And it will be shipped in 40' container.
Unloading	40 feet ocean freight container:
	A: Take out the small packages.
	B: Use folk lift to take out the wall panel packages.
	C: Grapple the corner on bottom side of the container house and drag the package out, remain about 50cm in the shipping container.
	D: Use folk lift to lift the container package in the middle and move it out of the shipping container.
	E: Put the package on ground side-wise, use wooden pad if it's flat-wise.
Delivery by 40'HQ shipping container by bulk packing in general .	

FAQ

1, Ano ang iyong termino sa Pagbabayad?

50% na deposito sa pamamagitan ng TT, 50% na balanse bago mag-load ng lalagyan sa pamamagitan ng TT; 100% LC sa paningin (kabuuang pagbabayad sa 100,000USD);

2, Paano ang tungkol sa Pagpapadala?

Gumagamit kami ng 40HQ na lalagyan upang ipadala ang mga kalakal; Karaniwan ang 40HQ na lalagyan ay maaaring mag-load tungkol sa 160-180 square meters bahay.

3, oras ng paghahatid?

Depende sa MOQ, karaniwang maaari naming ayusin ang kargamento sa paligid ng 10 araw pagkatapos ng natanggap na deposito

4, Paano mag-install?

Karaniwan ay magbibigay kami ng pagguhit ng pag-install, at kung kinakailangan, nagbibigay din kami ng pag-install ng video.

5, Maaari ba kayong magpadala ng mga manggagawa upang matulungan akong magtayo ng bahay?

Isinasaalang-alang ang gastos sa paggawa, kaligtasan at mga isyu sa visa, iminumungkahi namin na magpadala ng isa o dalawang inhinyero upang gabayan at sanayin ang iyong mga tauhan. Dapat kang magbigay ng air tickets, hotel, at pagkain, at 100USD bawat araw para sa suweldo ng engineer.
