Pagpapadala ng Packaging

Packaging & Shipping

Packaging	Mixed packaging: roof frame and bottom frame will be packed together with bolts; all the wall panels packed together with wooden pallet in the bottom, corrugated board on the surface, and XPS board in the inter-space. And it will be shipped in 40' container.
Unloading	40 feet ocean freight container:
	A: Take out the small packages.
	B: Use folk lift to take out the wall panel packages.
	C: Grapple the corner on bottom side of the container house and drag the package out, remain about 50cm in the shipping container.
	D: Use folk lift to lift the container package in the middle and move it out of the shipping container.
E: Put the package on ground side-wise, use wooden pad if it's flat-wise.	

Delivery by 40'HQ shipping container by bulk packing in general .

FAQ:

1, Ano ang iyong termino ng Pagbabayad?

50% na deposito ng TT, 50% na balanse bago magkarga ng lalagyan ng TT; 100% LC at sight kabuuang bayad na higit sa 100,000USD);

2, Paano ang tungkol sa Pagpapadala?

Gumagamit kami ng 40HQ container para ipadala ang mga kalakal; Karaniwan ang 40HQ container ay maaaring magkarga ng mga 160-180square meters na bahay.

3, oras ng paghahatid?

Depende sa MOQ, kadalasan ay maaari naming ayusin ang kargamento sa paligid ng 10 araw pagkatapos matanggap ang deposito

4, Paano mag-install?

Kadalasan ay magbibigay kami ng installation drawing, at kung kinakailangan, nagbibigay din kami ng installation video.

5, Maaari ka bang magpadala ng mga manggagawa upang tulungan akong magtayo ng bahay?

Isinasaalang-alang ang gastos sa paggawa, kaligtasan at mga isyu sa visa, iminumungkahi naming magpadala ng isa o dalawang inhinyero upang gabayan at sanayin ang iyong mga tauhan. Dapat kang magbigay ng mga air ticket, hotel, at pagkain, at 100USD bawat araw para sa suweldo ng engineer.
