## Advantage

Item	Content
<b>Flexible combination</b>	Our mobile house can be linked freely at length, width and height through the linking kits for bigger structure and different layout.
<b>Fast installation</b>	Four workers can erect it in 7~15 days.
<b>Economic transportation</b>	It will be loaded into shipping containers(main structure and panels in bulk, door/ceiling/floor tiles/furniture in cartons, sanitary/electrical/plumbing/hardware/fittings/tools in wooden cases).
<b>Cost performance</b>	It could be produced in mass production. Furthermore,it could be interchanged, replaced and maintain easily.
<b>Energy saving</b>	Choosing our new mobile house helps to save natural resources and energy as well as reduce industrial wastes.
<b>Fireproof</b>	According to test by national research center of testing techniques for building materials, our mobile house is a grade A1 non-combustible material which can withstand thousands of degree fire resistance test by flame gun on site.
<b>Waterproof</b>	It is with good water tightness. There is no deformation,expansion, shrinkage or damage after being exposed to water in a long time.
<b>Good weather ability</b>	It is against heat & cold as well as UV radiation. There is no crack after 50 freeze-thaw cycles.
<b>Unlimited mold ability and creativity</b>	Our mobile house is with strong artistic expression, showing different cultural values, any architecture style is available without increasing too much cost. It makes buildings and cities more wonderful.
