Embalagem e Envio

Packaging & Shipping

Packaging	Mixed packaging: roof frame and bottom frame will be packed together with bolts; all the wall panels packed together with wooden pallet in the bottom, corrugated board on the surface, and XPS board in the inter-space. And it will be shipped in 40' container.
Unloading	40 feet ocean freight container:
	A: Take out the small packages.
	B: Use folk lift to take out the wall panel packages.
	C: Grapple the corner on bottom side of the container house and drag the package out, remain about 50cm in the shipping container.
	D: Use folk lift to lift the container package in the middle and move it out of the shipping container.
	E: Put the package on ground side-wise, use wooden pad if it's flat-wise.

Delivery by 40'HQ shipping container by bulk packing in general .

PERGUNTAS FREQUENTES:

1, Qual é o seu prazo de pagamento?

Depósito de 50% por TT, saldo de 50% antes do carregamento do recipiente por TT; 100% LC ao pagamento total de visão superior a 100,000 USD);

2, Como sobre o transporte?

Usamos o recipiente 40HQ para enviar os bens; Normalmente, o recipiente 40HQ pode carregar cerca de 160-180 Casa metros quadrados.

3, Tempo de entrega?

Depende do MOQ, geralmente podemos organizar o transporte em torno de 10 dias após o depósito recebido

4, como instalar?

Geralmente forneceremos desenho de instalação e, se necessário, também fornecemos vídeo de instalação.

5, você pode enviar trabalhadores para me ajudar a construir casa?

Considerando o custo do trabalho, segurança e questões de visto, sugerimos enviar um ou dois engenheiros para orientar e treinar seus funcionários. Você deve fornecer bilhetes aéreos, hotel e refeições, e 100 USD por dia para o salário do engenheiro.
