

# Turnkey Resort Cabin

REDEFINE NATURAL DWELLING

E-mail: [admin@qualityprefabhouse.com](mailto:admin@qualityprefabhouse.com)

WA: +8613153691144

## PRODUCT FEATURE COMPETENCES

### No restrictions, eco-friendly

Suitable for peaks, forests, tidal flats, etc. No construction waste, environmentally friendly

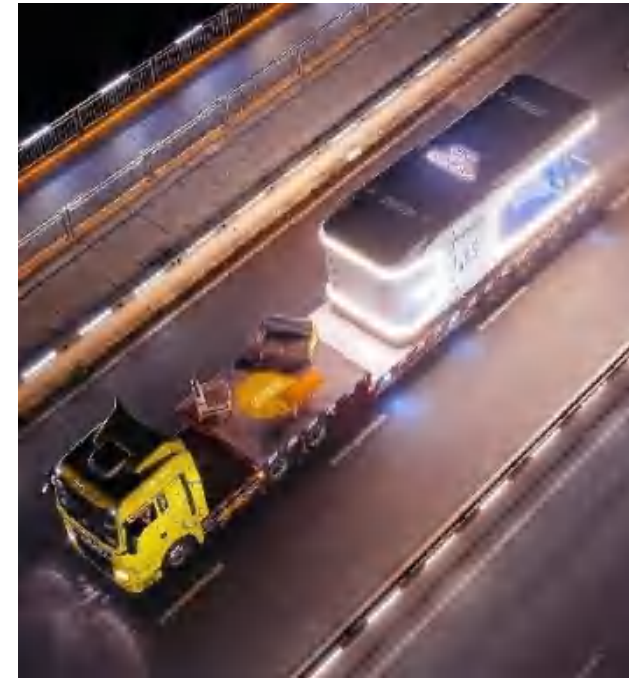

### Prefabricated, quick installed

45 days production, 2 hours installation. On-site construction is not required

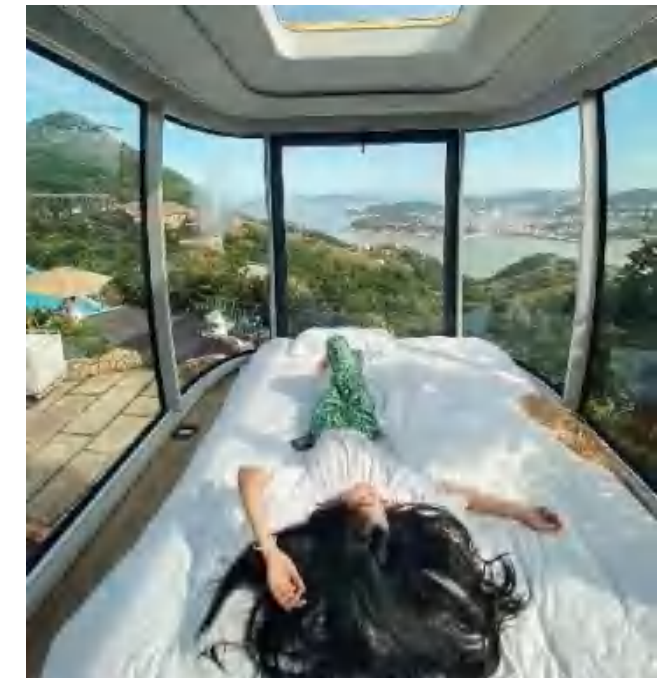

### Unique & attractive design

100% original design, leading the fashion trend. Multiple media reports, popular in the market

### Panoramic view, back to nature

270° Floor-to-ceiling window, good insulation. Sleep in the scenery, enjoy the beauty of nature

# INSTALLATION AND TRANSPORTATION

## Transportation

The product will be loaded on a delivery vehicle and shipped by a flat rack-container.

## Hoisting

After arriving the project site, the product should be hoisted by the local crane service. The weight of the product is between 6 to 10 tons. It is recommended to arrange 25 tons for loading and unloading.

## Installation

Place the product in the designated location, then insert power and water, then test the performance after the installation is done
