

## Flat series 平面纹

## QZ series 七砖纹

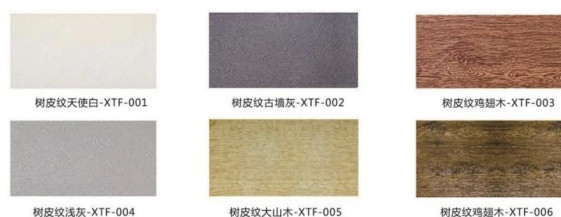

## TT series 弹涂纹

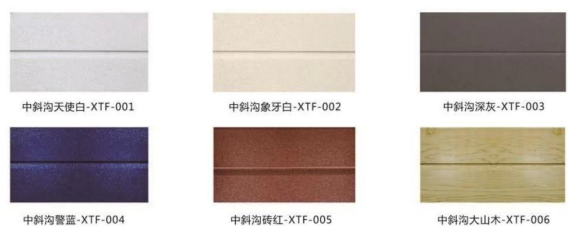

## ZZG series 中直沟

## SP series 树皮纹

## ZXG series 中斜沟

### SS series 砖纹双色系列

### WHS series 文化石系列

### XWL series 小瓦楞纹

### MW series 木纹系列

### Aluminum alloy accessories 铝合金配件

|  |                              |                                                                                                                        |
|--|------------------------------|------------------------------------------------------------------------------------------------------------------------|
|  | 材质: 铝合金<br>用途: 起步件, 窗门口内侧收口件 | Texture: Aluminum alloy<br>Function: starting part, landing-off part of inside part of the window, internal-angle part |
|  | 材质: 铝合金<br>用途: 上部收口          | Texture: Aluminum alloy<br>Function: building lot of landing-off part                                                  |
|  | 材质: 铝合金<br>用途: 门窗包边          | Texture: Aluminum alloy<br>Function: base of landing-off part                                                          |
|  | 材质: 铝合金<br>用途: 内置起步件         | Texture: Aluminum alloy<br>Function: inside starting part                                                              |
|  | 材质: 铝合金<br>用途: 板材横内连接        | Texture: Aluminum alloy<br>Function: base of board connecting part                                                     |
|  | 材质: 铝合金<br>用途: 大阳角、大阳角扣盖     | Texture: Aluminum alloy<br>Function: Connecting part                                                                   |
|  | 材质: 铝合金<br>用途: 阴角底座、阳角扣盖     | Texture: Aluminum alloy<br>Function: exterior corner cap or interior corner base                                       |
|  | 材质: 铝合金<br>用途: 阴角扣盖、阳角底座     | Texture: Aluminum alloy<br>Function: exterior corner base or interior corner cap                                       |
|  | 材质: 同材质+镀锌轻钢<br>用途: 同质阳角件    | Texture: homogeneity +Galvanized light steel<br>Function: homogeneous positive corner parts                            |
|  | 材质: 同材质+镀锌轻钢<br>用途: 同质阴角件    | Texture: homogeneity +Galvanized light steel<br>Function: internal corner fittings                                     |
|  | 材质: 同材质+镀锌轻钢<br>用途: 同质中隔条    | Texture: homogeneity +Galvanized light steel<br>Function: base of board connecting part                                |
